1. Claims 1,3-5, 8 and 9 are presented for examination.
2. The amendment filed 04/19/2004 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "without requiring the user to first open the message",.

Applicant is required to cancel the new matter in the reply to this Office Action.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1,3-5, and 8-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no mention in the Detailed Description of the Preferred Embodiment or the Summary of Invention of the newly added limitation "without requiring the user to first open the message", as such there is no recitation of any process or program steps to be performed to accomplished this desired end results or any suggestion of any process or program steps as to modify an existing program to accomplish the desired end results.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
